

MINIBET

BET 37

BET 40

This exploded view diagram illustrates the assembly of the BET 40 refrigerator. The components are labeled with part numbers and are organized into several sub-assemblies indicated by dashed lines:

- Top Section:** Includes the upper door frame (1911), the main body frame (1923), and the upper door panel (1920, 1921). Components like 1905, 1906, 1935, 1922, and 1933 are shown for the door assembly.
- Internal Components:** The evaporator assembly (1912) is shown at the bottom, along with the condenser coils (1913, 1914), the compressor (1910), and the fan motor (1911). The fan motor is connected to the fan blades (1912) via the fan shaft (1913).
- Refrigeration System:** The refrigerant lines (1915, 1916) are shown connecting the compressor to the evaporator. The system includes various fittings, valves, and a service valve (1917).
- Door Mechanism:** The door hinge assembly (1918) is shown, including the hinge pin (1919), hinge bracket (1920), and hinge plate (1921). The door is secured by the door latch (1922) and the door lock (1923).
- Control Panel:** The control panel (1924) is shown at the bottom right, featuring the temperature control knob (1925) and the defrost button (1926).

The diagram provides a detailed view of the refrigerator's internal structure, including the evaporator, condenser, compressor, and fan motor, as well as the door assembly and control panel.
